

Enhancing Productivity & Efficiency with Smart Automation Solutions

Who We Are

Kustom Automation is an industrial automation machine builder and integrator located in Manitowoc, Wisconsin. We are driven to help customers benefit from automation by implementing custom automated solutions.

How We Can Help

Improve Existing Equipment

We can improve the safety, efficiency, and productivity of existing automated equipment.

Custom Automated Solutions

We can automate your manual process. We will design, build, and install an automated solution customized to fit your process.

Automation Support

We can support your automated equipment to ensure your equipment is always in production. We can also support your team by providing knowledge and training.

Identify Automation Opportunities

We can evaluate your current processes and help determine if automation is a good fit. We can then determine possible solutions, their costs, and their return on investment (ROI).

Our Services

Automation Improvements

- Improve Efficiency & Productivity
- Increase Throughput
- Reduce Downtime
- Improve Safety
- Redeployment Of Unused Equipment

Custom Solutions

- Robot & Cobot Integration
- Packaging & Palletizing
- Part Handling & Conveying
- Assembly & Welding
- Machine Tending
- Quality Checks & Inspection

Engineering Services

- Robot Programming
- Controls Programming
- Vision Programming
- Mechanical Design
- Electrical Design

Automation Resources

- Automation Opportunity Assessment
- ROI/Project Budget Calculations
- Robot Training
- Automation Support Resource
